RECOMMANDATIONS DU RAPPORT

Version française

BACKGROUND

The Ottawa Police Service (OPS) continues to demonstrate courage and leadership in Canadian policing, as we address equity, diversity, and inclusion issues in today's unprecedented environment, that includes the COVID 19 pandemic, the ongoing Black Lives Matter demonstrations against systemic racism, #MeToo violence against women movements, Murdered and Missing Indigenous Women calls for action, and other demonstrations taking place against OPS and policing and around the world. There have also been a number of complaints and incidents related to systemic discrimination in the media affecting our membership and the local community.

The Equity, Diversity, and Inclusion Action Plan 2020-2022 is a major deliverable of the Ottawa Police Services Board's (Board) Strategic Plan in the priority area to: "Make meaningful progress on Equity, Diversity and Inclusion (EDI)."

The 2020 EDI Action Plan (Year 1) was tabled with the Board in January 2020 and approved at the February Board meeting. It is built on significant police and community engagement efforts and responds to various recommendations from surveys, research, complaints, and audit reports. The current version is available at ottawapolice.ca/EDI. This has been a foundational first year of the EDI Action Plan, and we are making progress with collaborative leadership and collective action.

This report is an opportunity to provide an update on the progress to date and outline remaining 2020 priority work areas – continuing to focus on member wellness, sexual violence and harassment in the workplace, and other systemic issues such as gender based discrimination, racial profiling, anti-black racism, and anti-indigenous racism, homophobia, xenophobia, etc.

We remain focused on moving from reports and recommendations to acknowledgement and action that leads to meaningful and measurable change. It's about creating a police service our police and community members deserve. While the current environment is presenting some challenges and delays, it is important more than ever to press on and not lose momentum. While much has been accomplished already this year, we know there is more work to do.

A more detailed progress report on the 2020 EDI Action Plan is attached to this update report.

DISCUSSION

The 2020-2022 EDI Action Plan is a three year organizational plan focused on creating meaningful and measurable progress and building a culture that embraces equity, diversity, and inclusion. It has:

- Focused activities and defined deliverables;
- Targeted outcomes and benchmark measures;
- Provided regular updates and progress reporting;
- Initiated culture change and engagement actions;
- Provided a multi-stakeholder approach – development, implementation, and monitoring; and
- Developed five key focus areas of work represented by a “house image”:
Leadership & Accountability, Community & Service Delivery, Diverse Workforce – All Levels, EDI Competent Members, and Member Support & Inclusion.

The short and user-friendly action plan, and this year's priorities, were built on many different sources including the recently released reports and significant inputs from both police and community members who contributed to the many meetings, interviews, forums, and surveys over the last few years. We also worked closely with the

Community Equity Council (CEC) and its working committees to design the plan and set priorities – including 10 priority action items for 2020.

The purpose of this report is to provide an update on the 2020 EDI Action Plan including:

- Progress to Date - on the ten 2020 priority action items as well as other human rights and EDI related work that has been accomplished, or is underway, with city partners and community stakeholders; and
- Remaining 2020 Work and Key Areas of Focus.

Progress to-date on the 2020 EDI Action Plan:

As outlined in the attached progress report, significant work has been completed, or is underway, with city partners and key stakeholders like the CEC.

While human rights and EDI work is seen traditionally as Human Resources or Executive main functions, OPS work is being championed not only by the new Respect, Values and Inclusion Directorate (RVI), but also by superintendents and staff in directorates across the organization, including Human Resources, Wellness, Performance and Professional Development, planning and Research, and Criminal Investigative Services – to name a few.

In recent months, 10 police services have made requests for meetings and additional information on how to build the EDI Action Plan and unit, including background reports such as engagement plans and recently conducted review and audit reports.

2020 Priority Action Items – Status Updates (see attached progress report for more details)

1. Create EDI Office to enhance EDI efforts and coordination across the OPS.
 - 80% Complete. A new RVI Directorate was announced on May 7 – effectively launching the EDI Section. The new section is focuses on bringing the broader membership together by implementing inclusive practices as well as leading and incorporating systemic change throughout the organization.
 - The section developed the EDI Action Plan which is the guiding strategy for the section and this work across the organization. The section is currently working on priority action items: Leadership and Coaching Sessions, culture change strategy, custom EDI Lens Toolkit for the organization and other partnership initiatives in addition to ensuring the coordination and measurement of the plan. Full staffing is expected to be complete by October.
2. Provide EDI coaching and mentoring to equip our leaders with culture change and EDI Tools.

- 80% Complete. EDI Leadership Session featuring global human equity strategist and author Mr. Peter Trevor Wilson of The Human Equity Advantage scheduled for September 22 with all senior staff. Senior staff also attended a session with CEC Community Leader Mr. Gerard Etienne on understanding EDI and systemic discrimination, on September 8. Planning is already underway for Intercultural Developmental Inventory assessments (IDI) and additional leadership sessions.
3. Develop an EDI Lens Toolkit to improve our decision-making and Internal and External systems – including updates to the Transfer, Promotions, and Developmental Rotation processes.

 - 80-90% Complete. The Outreach and Recruitment Team has made significant progress to remove barriers and improve recruiting process, including changes to the background process and training, fitness testing, interview process. Overview of improved processes and early success indicators – presented to the Board in March 2020 include:
 - Replacing the ATS testing with a local more inexpensive approach that is also later in the process has created a much larger diverse pool of candidates because we removed barriers to applying like cost, accessibility and time.
 - Background investigators are provided with human rights and unconscious bias training. The background stage is not the last and final stage of the process any more, but it is a report considered and reviewed by a team as part of the decision-making process.
 - A mentorship program was created to match potential new recruits with officers.
 - Historically we have 650 applicants a year. Between January and September 2020, we have 2180 applicants. Based on self-identification

(not everyone self-identified) of the 2180: 18.25% women (vs 12% previously), 36.43% racialized (vs. 13% previously), and 4% Indigenous.

6. Initiating community dialogue and working with stakeholders for more effective mental health response (including training) with interagency and intersectional approach that addresses gaps, improves service delivery, builds collective action, and contributes to community safety and well-being.
 - 40-50% Complete. Review of the OPS' mental health strategy and response is underway. Work is also taking place at the national level with the Canadian Association of Chiefs of Police.
 - The priority action item is related to several ongoing projects including the development of the Community Safety and Well Being Plan.
7. Enhance member wellness supports and inclusion efforts – Accommodations, Early Intervention, and formalizing Employee Resource Groups (ERGs).

Additional activities include a review of the School Resource Officer program and continued work with the City of Ottawa and stakeholders on the Community Safety and Wellbeing Plan.

Incorporating Board Member Nirman’s Motion

Board Member Daljit Nirman demonstrated leadership and support for the EDI Action Plan, priority action items, and the overall key objectives when he made the important motion at the June Board meeting: “Addressing systemic racism, discrimination, and bias, and creating a more equitable and inclusive Ottawa Police Service.”

The OPS has met with Mr. Nirman and is committed to including him in the EDI management and steering committees to advise and oversee the ongoing development, implementation and monitoring of the plan and key deliverables. In addition to participating on the Sexual Harassment and Violence in the Workplace project, he will be invited to participate and provide advice on remaining major 2020 EDI initiatives that we are working with key partners and stakeholders on – our continuing work with the CEC in developing, implementing, and monitoring the plan, including the need to develop measurement and success indicators, and continuing work on addressing racial profiling, including the racial profiling policy review scheduled to begin in October.

Remaining 2020 Work and Key Areas of Focus

- Continue to work with the CEC and their committees on EDI, trending issues, communications, Indigenous relations, anti-racism, training, and Outreach Recruiting.
