Message from the Chief

I'm pleased to present the Ottawa Police Service's new DRIVE² Strategy – our roadmap for transformative change towards a more **D**iverse, **R**espectful, **I**nclusive, **V**alues-based, **E**quitable, and **E**ngaging police service.

In 2020, the Service launched the initial three-year Equity, Diversity and Inclusion (EDI) Action Plan. It was a groundbreaking plan that included 10 action items to improve areas within the Service and for the community. Many positive results have been achieved but there is much more we have to do to continue the momentum of the initial action plan.

The population of Ottawa has exceeded 1,000,000 and it is a city rich in diversity and multiculturalism. As a public service organization, we recognize the important benefits of not only reflecting the diversity of the population but also providing services and supporting environments that value and respond to the unique characteristics of the many communities within the National Capital Region. As well, the Ottawa Police Service is committed to upholding human rights and the principles of equity, diversity, and inclusion. The Service is on a journey of organizational change, seeking to improve service response and internal culture through multiple approaches.

The new three-year DRIVE² Strategy has been developed in collaboration with the Community Equity Council. The Strategy embeds EDI as a shared responsibility across the Service and sets the organization in the direction of continued teamwork, growth, and progress.

The DRIVE² Strategy will be our roadmap to continue the journey of transformative change our members and the communities we serve both want and deserve.

Success of this new strategy will rely on the commitment of all police members to embrace the plan and find where they can each contribute to positively influence the work environment and our service to communities. We need our members and partners in the community to contribute to the success of this next three-year plan.

Together we will continue this journey and drive action.

Eric Stubbs
Chief of Police

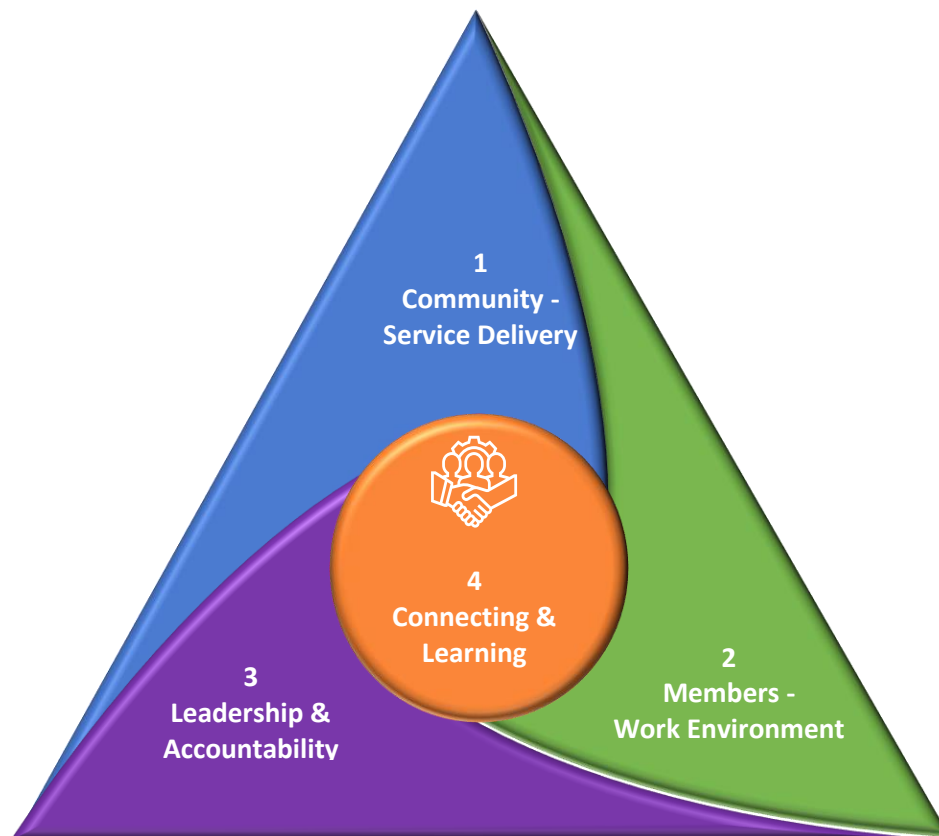

Introduction

The Ottawa Police Service (OPS) **DRIVE² Strategy** was developed in collaboration with the Community Equity Council (CEC) and is reflective of numerous inputs from both community and OPS members, as well as multiple stakeholder engagements and third-party reviews and audits that identified needed changes to improve culture and service delivery. The Strategy is a comprehensive human rights organizational change strategy with shared responsibility across OPS.

The DRIVE² Strategy builds on the foundational work of its predecessor, the 2020-2022 Equity, Diversity, and Inclusion (EDI) Action Plan (See Appendix A: EDI Action Plan 2020-2022 Accomplishments). Four **key focus areas** to guide our work the next three years.

1. Community – Service Delivery
2. Members – Work Environment
3. Leadership & Accountability
4. Connecting & Learning

Each focus area supports the achievement of the Strategy’s overall goals and includes specific 2023 action items that are assigned to leads within the organization to drive proactive change. External stakeholder supports, methods of measurement, and expected outcomes are also included. Action items for the next two years (2024 and 2025) will be aligned with the annual budget process and identified based on police and community member inputs, assessments, and environmental scans.

2023-2025 DRIVE² Strategy – Focus Areas

Current Environment and Calls for Change

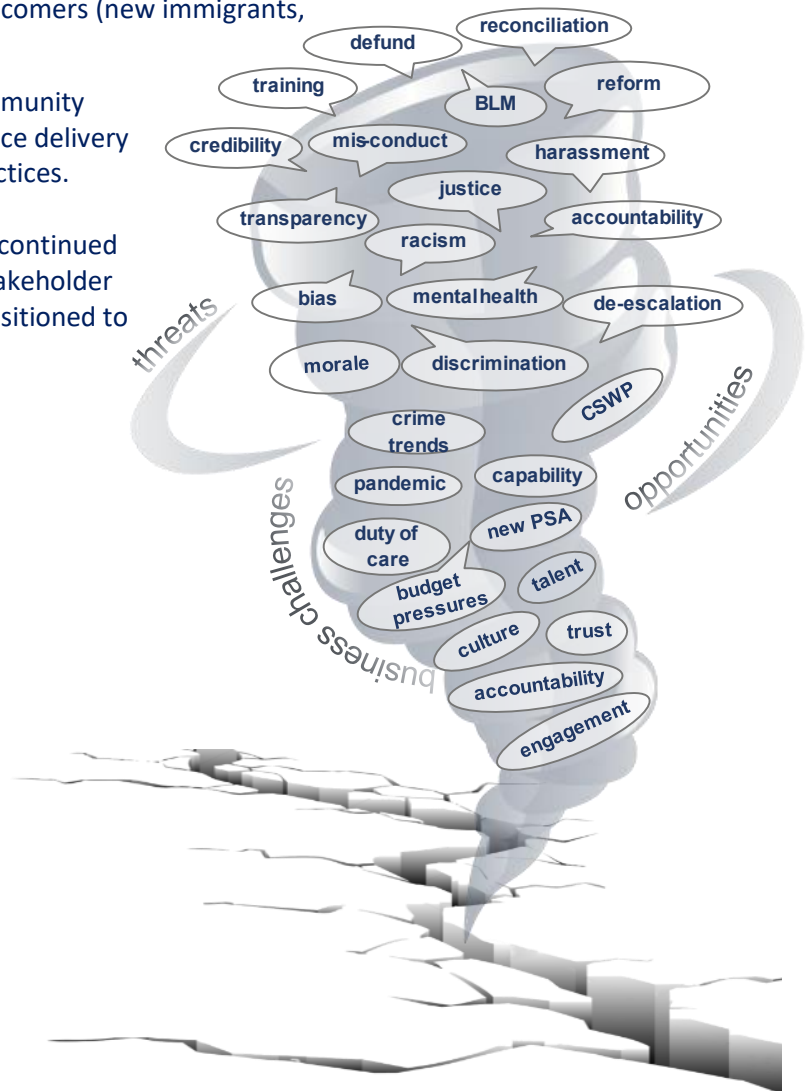

As the nation’s capital police service, the Ottawa Police Service must be acutely aware of the national and international news and events that impact our city – including but not limited to COVID-19, Missing and Murdered Indigenous Women and Girls, unmarked grave site findings at former residential schools, the opioid crisis, Police Reform demonstrations, Black Lives Matter movements, police defunding efforts, rising violence against women and hate crimes against various communities. These areas of concern are also opportunities to build understanding and relationships, and to enhance public safety and trust. By acknowledging community concerns and the disproportionate impact on specific communities, we can more effectively work together for positive change.

As a police service, the OPS is also operating in a constantly changing environment with legislative policing requirements, rulings, and decisions. Faced with budget and staffing pressures, the Service needs to be flexible and transparent with an aim to meet and exceed these changing requirements at the federal, provincial, and municipal levels.

Ottawa is a diverse city that continues to grow. The OPS must continue to evolve in turn, adjusting to meet the changing needs of a dynamic and growing population. It is imperative that the Service listens to community needs and builds relationships to effectively address concerns and improve the safety and well-being of all residents, visitors and newcomers (new immigrants, refugees and asylum seekers).

We know from listening to both police and community members that we need to improve overall service delivery as well as our internal culture, policies, and practices.

The DRIVE² Strategy is the roadmap to support continued transformative change. In collaboration with stakeholder partners and communities, we will be better positioned to navigate through the complex and challenging environments to affect positive change.

Setting Goals and Measuring Impact

Together we will drive action in the **DRIVE² Strategy**'s four focus areas to ensure we make meaningful progress over the next three years by focusing on achieving the following key goals:

1. **Excellence in Service Delivery.** The OPS recognizes that to best serve the needs of Ottawa's communities, the organization must fully engage with the public leveraging a diverse array of interpersonal skills to gain understanding, mutual respect, and trust.
2. **A Diverse, Equitable, and Inclusive Internal Culture.** To support excellence in service delivery, the OPS must foster an internal culture with an intersectional approach that values diversity and the unique skills, experiences, and contributions of every Service member.
3. **Continuous Exemplary Leadership.** OPS leaders at all levels must model the way for members, demonstrating respectful interactions and ensuring every member is treated equitably and has equal opportunity to contribute to the organization throughout their respective careers.
4. **Continuous Engagement.** Achievement of the above three goals must be supported through continuous connecting and learning. The OPS is committed to change and will engage in meaningful interactions with community as well as with each other for transparency, continuous professional development, measurement, and progress.

We are committed to measuring and tracking our progress over time against available benchmarks and metrics to determine if we are reaching our target outcomes in the short (annual) and long-term (2025). We will also conduct assessments and track key performance indicators for each focus area.

Additionally, we will provide regular updates on our progress to the community, the Board and OPS members.

Leadership & Accountability

03

We will equip OPS leaders at multiple levels with the resources needed to promote DRIVE2 Strategy objectives by taking actions to foster a diverse, equitable, and inclusive workplace as well as to model respectful and culturally informed interpersonal relationships by:

- Using an intersectional lens and anti-racism approaches in our programs, policies, and decision-making;
- Supporting leadership development and coaching in human rights, EDI, and cultural awareness; and,
- Focusing on governance and accountability.

Acknowledgements

The Community Equity Council (CEC), working within an intersectional framework, collaborates with the Ottawa Police Service to work more effectively with Indigenous, racialized, and faith-based communities in Ottawa.

The CEC Committees, which include but are not limited to the Anti-Racism Committee, an Indigenous Relations Committee, the Communications Committee, and the EDI Committee, are co-led by a community and a police member of the CEC.

The CEC and its related Committees were instrumental in advising on the priority action items included in the 2020-2023 EDI Action Plan, assisting in identifying target outcomes and success indicators, and conducting important relationship building activities including listening circles in the community. The Ottawa Police Service is grateful for this important relationship with the CEC and thanks the dedicated members for their guidance in working together to drive change for this new strategy.

The OPS also acknowledges and thanks the many other individuals who contributed to the development of the **2023-2025 DRIVE² Strategy**, as well as the many who will support its implementation in the months ahead.

The OPS would also like to acknowledge the Centre for Global Inclusion and the Global Diversity, Equity & Inclusion Benchmarks for providing a framework to develop the strategy and measure progress.

Appendix A: EDI Action Plan 2020-2022 Accomplishments

The Equity, Diversity, and Inclusion (EDI) Action Plan 2020-2022 was a major deliverable of the Ottawa Police Services Board’s (Board) Strategic Plan in the priority area of making “Meaningful Progress on Equity, Diversity and Inclusion.”

Leading up to the development of the Action Plan, there were several independent reports and recommendations as well as significant input from police and community members that were calling for systemic and cultural change in policing.

At our fifth Annual Human Rights Learning Forum on December 4th, 2019, OPS made a commitment to community and police members to continue our leadership and partnership work on EDI and release an action plan in January 2020. OPS delivered on that commitment by tabling the EDI Action Plan 2020-2022 at the January 27, 2020 Board meeting.

The concise and user-friendly action plan with ten priority items was developed with input from a variety of sources including previously released related reports and significant inputs from both police and community members. OPS also worked closely with the Community Equity Council (CEC) and its working committees to design the plan, set the priorities, and implement the plan.

The following table provides a summary of completed work – much of it built in collaboration with community stakeholders, and partners such as the CEC. Further details are available in the EDI Action Plan: 2020–2022 Closeout Report, presented to the Board in March 2023.

The OPS is proud of the important foundational work completed to date and its progress on the journey to becoming more equitable, inclusive, and diverse police service. While we have outlined the many accomplishments towards this goal in the EDI Action Plan: 2020 – 2022 Closeout Report, there is much more work to do. The DRIVE² Strategy 2023-2025 builds on those accomplishments. It’s critical to maintain the momentum on creating a Service that police and community members want and deserve.

Appendix B: Key Definitions

Anti-racism: an active and consistent process of change to eliminate individual, institutional, and systemic racism as well as the oppression and injustice racism causes.

Barrier: anything that prevents a person from fully taking part in all aspects of society, including physical, architectural, information or communications, attitudinal, economic, and technological barriers, as well as policies or practices.

Community Engagement: action that encourages the participation of neighbours and citizens in increasing their own and others' safety, security and well-being. Community Engagement is the process by which citizens are engaged to work and learn together on behalf of their communities to create and realize bold visions for the future.

Cultural Competence: an ability to interact effectively with people of different cultures, particularly in human resources, non-profit organizations, and government agencies whose employees work with persons from different cultural/ethnic backgrounds.

Diversity: the presence of a wide range of human qualities and attributes within an individual, group, or organization. Diversity includes such factors as age, sex, ethnicity, physical and intellectual ability, religion, sexual orientation, educational background, and expertise.

Equity: fairness and impartiality. It is a distinct process of recognizing differences within groups of individuals and using this understanding to achieve substantive equality.

Human rights: refers to rights legally enshrined in international human rights conventions and Canada's human rights laws, including the Canadian Human Rights Act, the federal Employment Equity Act, the Charter of Rights and Freedoms, and provincial human rights codes including the Ontario Human Rights Code.

Inclusion: appreciating and using our unique differences, strengths, and talents in a way that shows respect for the individual and ultimately creates a dynamic multi-dimensional organization.

Intersectional: The concept of 'intersectionality' has been defined as "intersectional oppression [that] arises out of the combination of various oppressions which, together, produce something unique and distinct from any one form of discrimination standing alone." An intersectional approach takes into account the historical, social and political context and recognizes the unique experience of the individual based on the intersection of all relevant grounds. This approach allows the particular experience of discrimination, based on the confluence of grounds involved, to be acknowledged and remedied.

Self-identification: the voluntary, confidential, self-disclosure of one or more personal identity characteristics, typically protected grounds of discrimination under human rights legislation (i.e. gender).

Systemic racism: patterns of behaviour, policies or practices that are part of the structures of an organization, and which create or perpetuate disadvantage for racialized persons.
